## Drive Value and Spend Less Time on Manually Intensive Tasks

### Turbocharge Your Patent Practice

Perform complex tasks in a fraction of time

### Improve accuracy

Reduce errors caused by manual entry

### Increase your bottom line

Time-savings and improved accuracy translate to direct savings

## Automation Tools To Save You Time and Money

### Patent Drafting Tools

Available in Pro and Pro+ versions

Automate tedious drafting steps, allowing you to concentrate on more substantial, strategic work that drives value. Our patent drafting tools streamline the drafting process and let you generate document sections in a fraction of the time. Maximize productivity, reduce human errors, and minimize the time that you spend on generating Office Action responses, USPTO correspondence, and client reports by automating the process.

- ✓ Automatically generate flowchart figures from method claims
- ✓ Use existing claims to generate application and claim Summary sections
- ✓ Store and reuse common boilerplate paragraphs and document sections
- ✓ Auto-complete part numbers in the specification as you type
- ✓ Auto-suggest for commonly used terms and acronyms as you type

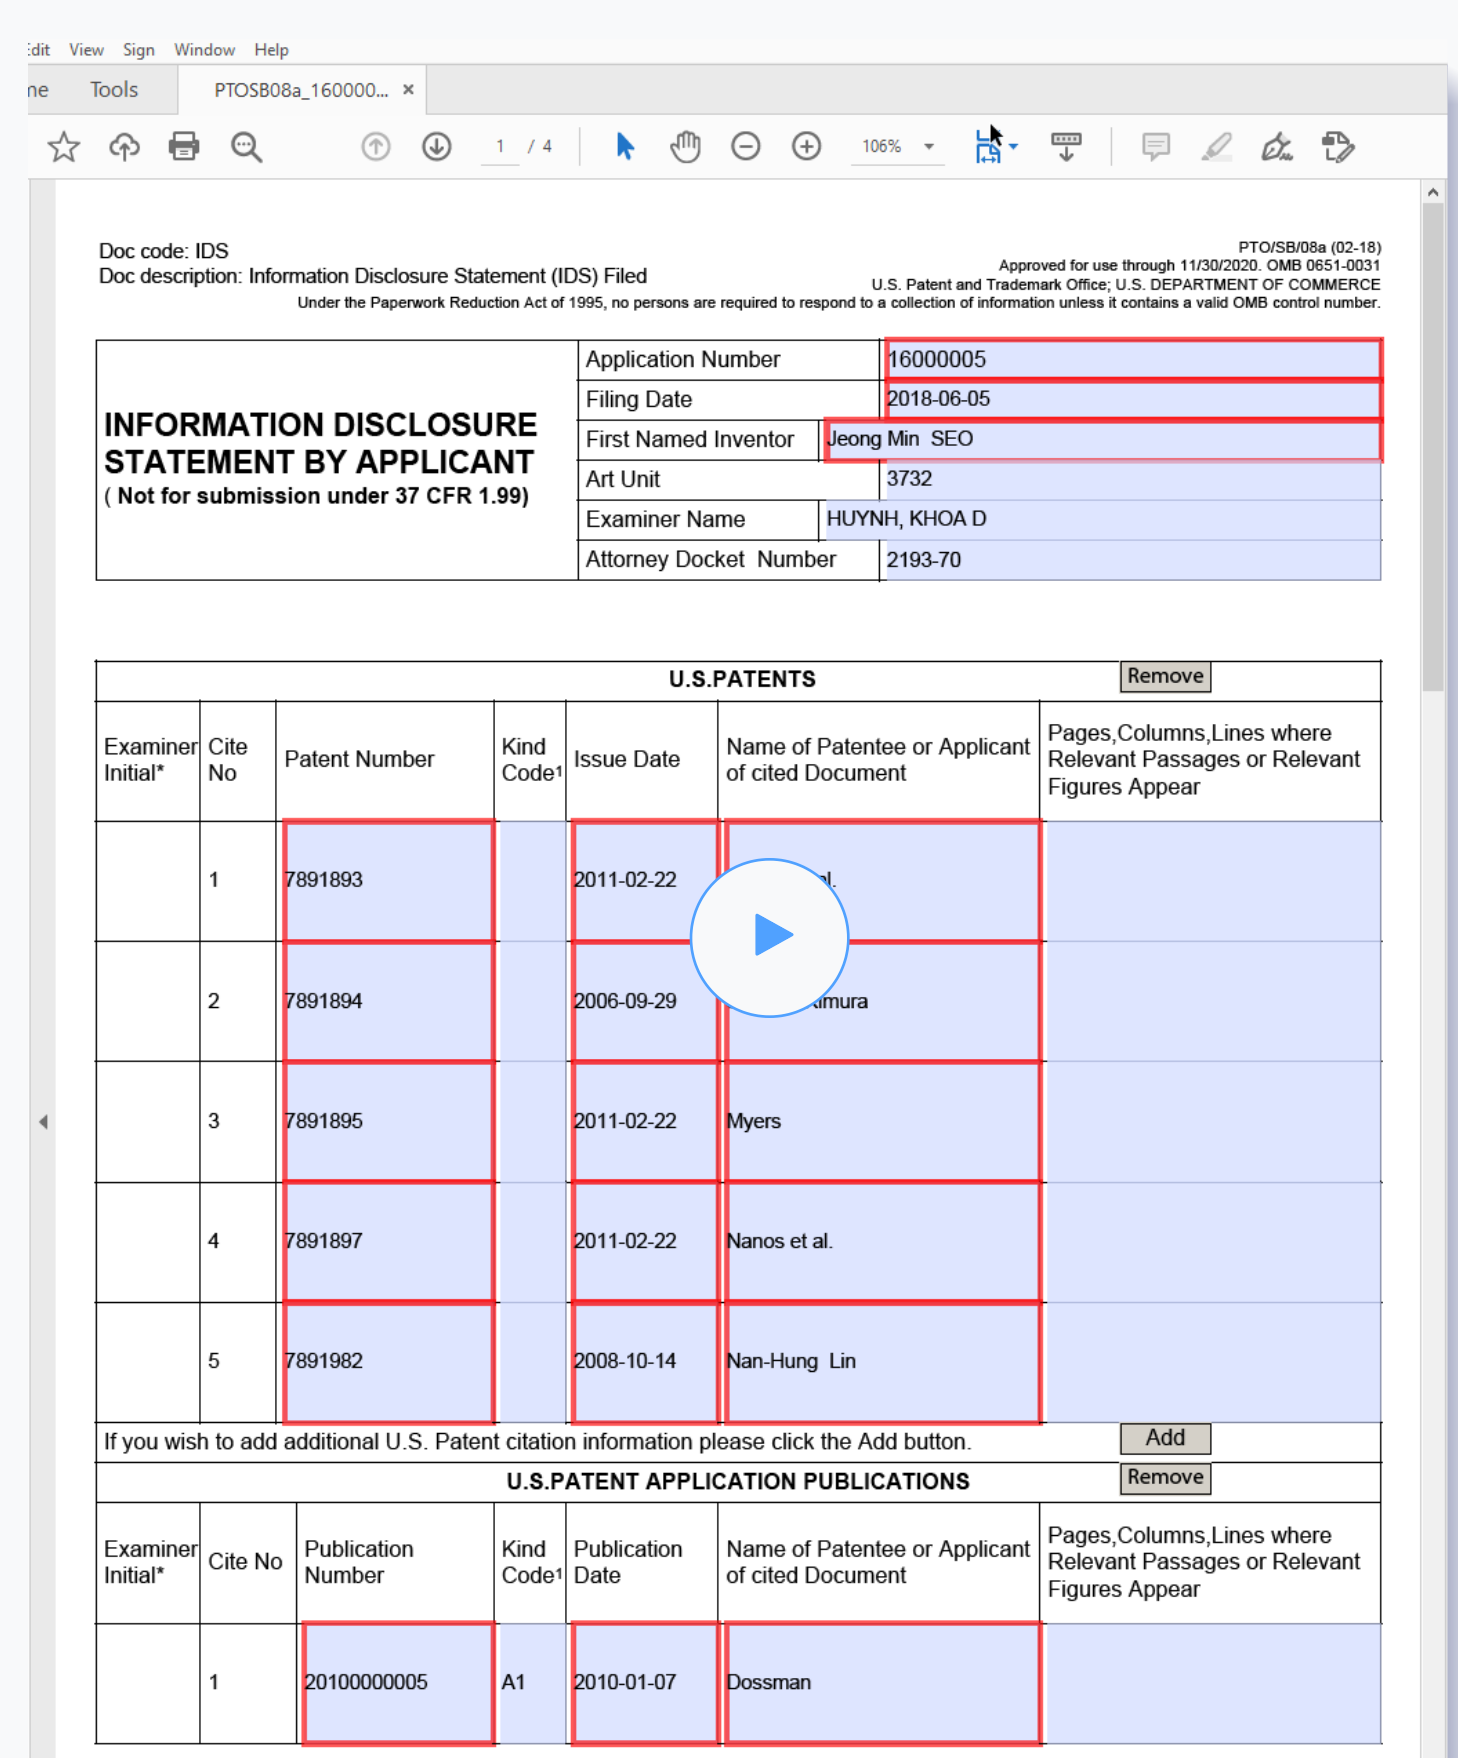

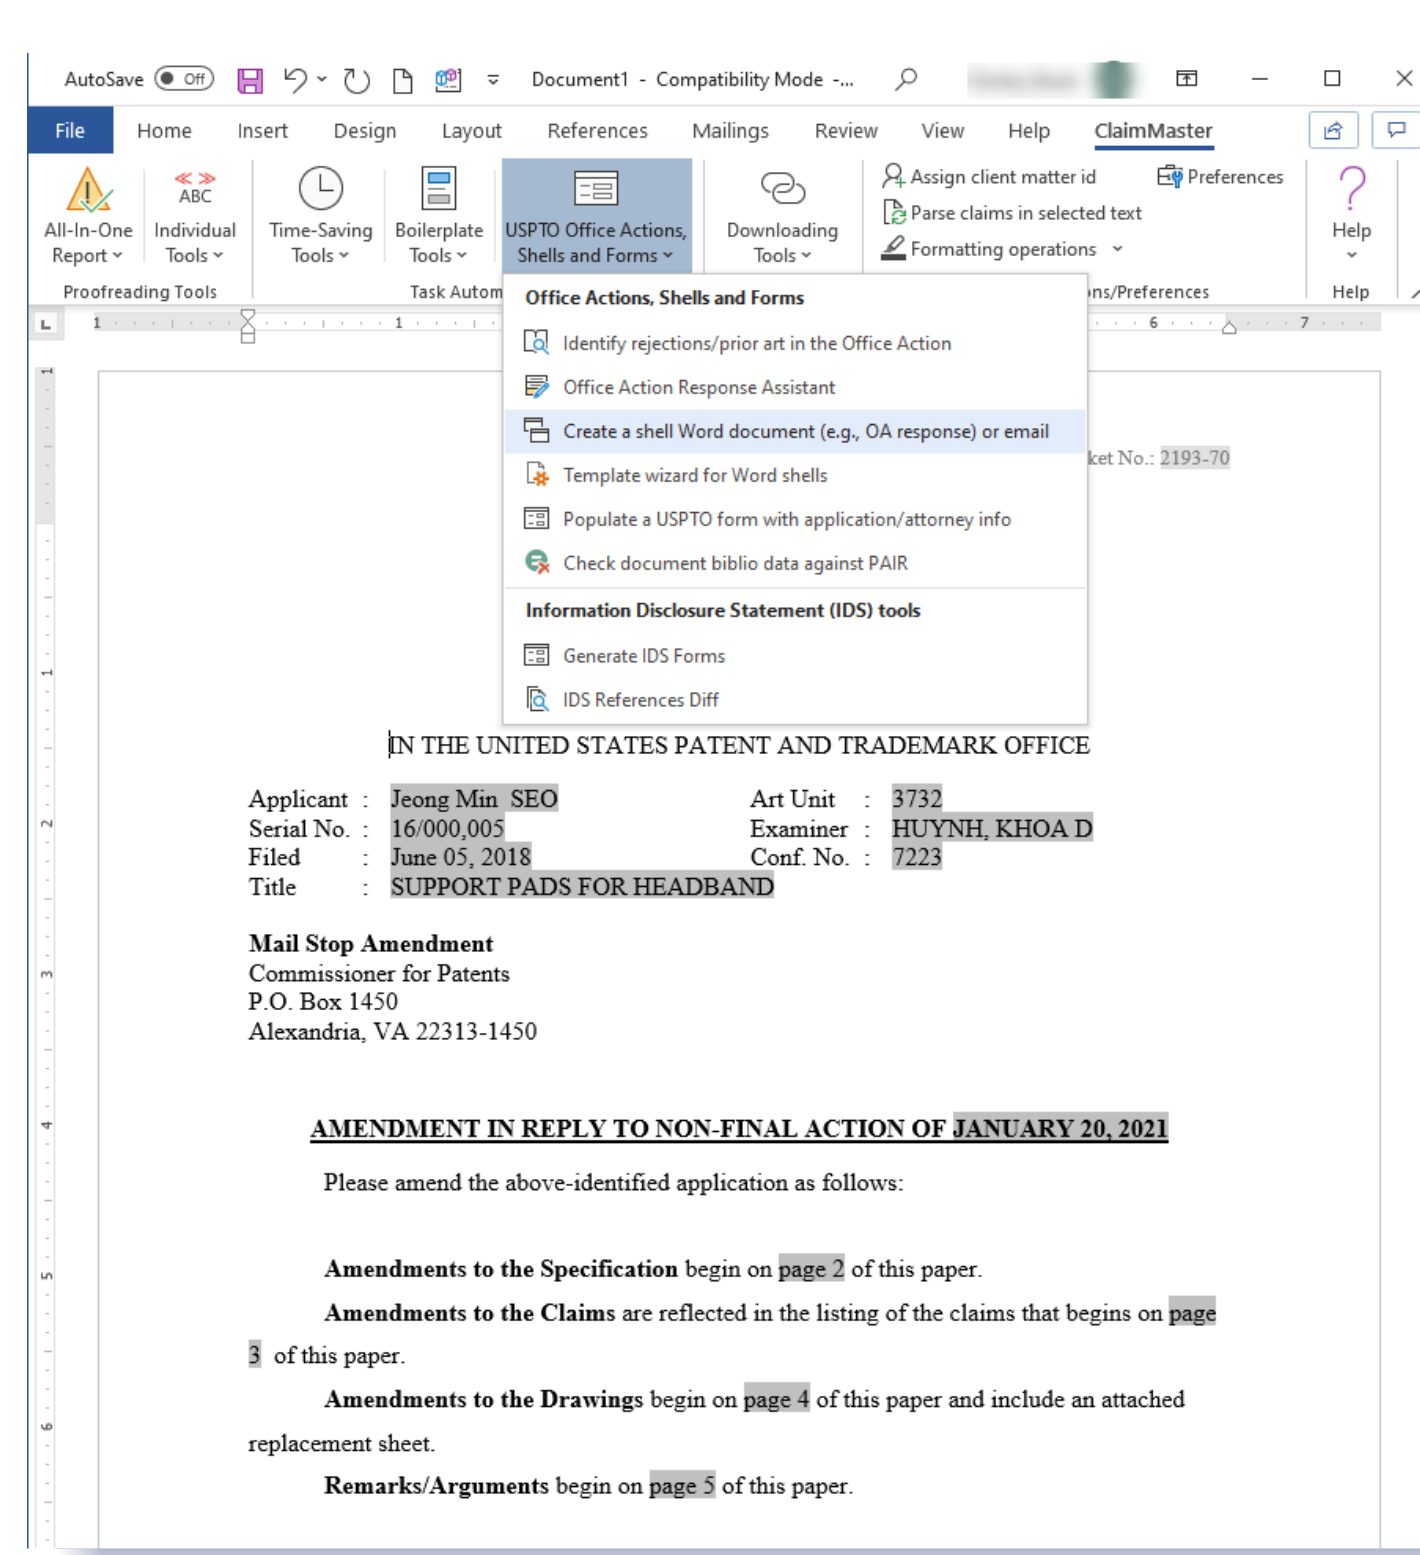

### Generate Shell Office Action Responses and Other Documents

Available in Lite+ and Pro+ versions

Maximize productivity, reduce human errors, and minimize the time that you spend on generating Office Action responses, USPTO correspondence, and client reports by automating the process. Create consistent and accurate documents filled with the latest bibliographic data and other pertinent information.

- ✓ Analyze Office Actions for rejections/objections and download the cited art
- ✓ Auto-generate response language specific to your Office Action content
- ✓ Complete shell customization based on your existing documents
- ✓ Re-use common Office Action response sections and boilerplate paragraphs
- ✓ Fill out multiple shell documents with the latest bibliographic data imported from PAIR or your docketing system

LEARN MORE ABOUT OUR SHELL TOOLS

### Fill out Information Disclosure Statements (IDS) and other USPTO forms

Simply pick the form you need from our library. ClaimMaster will instantly populate your form with the latest prior art and bibliographic data, saving you time and money.

- ✓ Pull data from Private/Public PAIR, PEDs, EPO, or your docketing system
- ✓ Completely fill out large Information Disclosure Statements (SB0808a) forms in seconds
- ✓ Simultaneously fill out multiple forms
- ✓ Minimize risk of data errors from manual entry
- ✓ Maximize productivity of your attorneys and IP staff

## Many Other Awesome Word Automation Tools

ClaimMaster includes many other time-saving patent tools that are guaranteed to streamline your patent practice, allowing you to concentrate on more substantive work

### Manipulate Claim Amendments

Instantly add or remove amendments and status indicators. Convert Track Changes to standard amendment formatting and vice versa

### Generate Claim Charts

Instantly generate highly customizable claim charts for all or specific claim ranges

### Compare Claims

Quickly perform a diff between claims within the same document, between files, or even patents

### Visualize Claim Trees

Generate graphical and textual representations of claim hierarchies

### Compute Excess Claim Fees

Compute excess claim fees using USPTO and EPO fee schedules

### Prepare EFS-Web Uploads

Split up applications into multiple DOCX documents for compliant EFS-Web uploads

## Work up to 10x Faster!

<p>Prepare an OA Response</p> <p><b>Manually: 1 hour</b></p> <p><b>With ClaimMaster: 10 minutes</b></p>	<p>IDS (100 references)</p> <p><b>Manually: 1 hour</b></p> <p><b>With ClaimMaster: 2 minutes</b></p>	<p>Flowchart Figure with 10 Steps</p> <p><b>Manually: 30 mins</b></p> <p><b>With ClaimMaster: 30 seconds</b></p>
<p>Clean-up an amended claim set</p> <p><b>Manually: 20 minutes</b></p> <p><b>With ClaimMaster: 5 seconds</b></p>	<p>Renumber claims</p> <p><b>Manually: 1 hour</b></p> <p><b>With ClaimMaster: 1 minute</b></p>	<p>Generate claim charts</p> <p><b>Manually: 30 minutes</b></p> <p><b>With ClaimMaster: 2 seconds</b></p>

## Trusted by thousands of IP professionals

"ClaimMaster provides you with an extra eye for detail at the touch of a button. I use ClaimMaster every time I review a patent application."

**Paul Franz**  
Principal, Fish & Richardson

"I use ClaimMaster for every application and response I write. ClaimMaster saves me time and increases the quality of my work. Those benefits pass directly to my clients."

**Hussein Akhavannik**  
Partner, BakerHostetler

"The ClaimMaster is a great resource for patent prosecution. I never file an application or amendment without first checking the claims with this software. You can tell it was written by a patent attorney!"

**Ira S. Matsil**  
Founding Partner, Slater & Matsil LLP

ClaimMaster has high reviews on G2 Crowd and Capterra, the world's leading business software review platforms.
